Abstract

Uchai is a small endangered ethnic group of Tripura. This paper discusses the major features of Uchai Nouns and Pronouns. While Section 1 servers as a brief introduction to the paper, Section 2 discusses the various ways of formation of Nouns in Uchai. Section 3 focuses on the classification of Nouns in Uchai. Section 4 presents the different types of pronouns in Uchai and also their uses. Finally, Section 5, while concluding the paper focuses on the salient features of Nouns and Pronouns as found in Uchai.

Keywords: Uchai, nouns, pronouns, formation of nouns, classification of nouns and pronouns

1. Introduction

The major tribal community of Tripura is variously called Tipra, Twipra and Tippera (Tipperah) with reference to the region wherein they have been settled for several centuries. The community speaks Kokborok. Kokborok, one of the Baric languages, has a number of dialects and one such dialectical variant is Uchai. The Uchai is a small endangered ethnic group living chiefly in the southern parts of Tripura and has a population of only 2,015 souls in the Census of 2001. Linguistically, Uchai belongs to the Bodo group of the Tibeto-Burman sub-family of Sino-Tibetan languages; they now speak a dialectical variant of Kokborok, the language of the Tippera.

The paper is primarily based on the data collected through fieldwork conducted in the Uchai villages of Tripura. The fieldwork consisted mainly of interviews with the native speakers of Uchai language. The persons of different age groups,
professions, and sexes have been used as informants and the data have been cross-checked with other speakers of the same variety. Apart from the field study, a few published dictionaries on Kokborok and Bru have also been consulted upon.

The goal of this study is to analyze the nouns and pronouns as found in Uchai. The study also anticipates to be useful to the Uchai scholars, general linguists, and to the native speakers of Uchai themselves. The present paper might be looked upon as a keystone for future studies on the Uchai language spoken chiefly in the state of Tripura.

2. Formation of Nouns

Uchai nouns are made up of one or more morphemes. Hence Uchai nouns can be broadly classified as (i) monomorphemic and (ii) polymorphemic nouns.

2.1. Monomorphemic Nouns

Nouns in Uchai are chiefly polymorphemic, though monomorphemic nouns are also found. A few examples of Uchai monomorphemic nouns are listed below:

- /ruwa/ ‘axe’
- /goŋ/ ‘bear’
- /ruŋ/ ‘boat’
- /sosa/ ‘cucumber’
- /doga/ ‘door’
- /pun/ ‘goat’
- /jouŋ/ ‘insect’
- /thun/ ‘lime’
- /alu/ ‘potato’
- /čini/ ‘sugar’

It is, however, to be noted that a good number of the monomorphemic nouns found in Uchai have been borrowed from other languages, especially Bengali. Moreover, all the generic nouns, as discussed below, which are the first member of the polymorphemic noun, can also occur independently and hence, they may be called monomorphemic nouns.

2.2. Polymorphemic Nouns

Nouns and Pronouns in Uchai
Polymorphemic nouns in Uchai are numerous. The polymorphemic nouns in Uchai are formed in the following ways:

(i) Nouns where the first member is a Pronominal Prefix

There are Uchai nouns where the first member of a noun is a pronominal prefix. The kinship terms are preceded by the personal pronouns, whereas other nouns are usually preceded by /mV-/ or /kV-/.

Here are few examples of Uchai nouns with pronominal prefix:

/a-moŋ/ ‘my mother’
/nə-hiʔ/ ‘your wife’
/bu-pha/ ‘his father’
/mə-phaŋ/ ‘tree’
/mə-khroʔ/ ‘head’
/mə-šu/ ‘cow’
/mə-tai/ ‘God’
/kə-šiʔ/ ‘hand fan’

(ii) Nouns where the first member is a Generic Noun

In Uchai, polymorphemic nouns are also formed by adding specific nouns after the generic noun. For instance, /mai/ ‘rice’ is a generic noun which can be followed by specific nouns as:

/mai-konda/ ‘corn’
/mai-člã/ ‘paddy’
/mai-roŋ/ ‘uncooked rice’
/mai-nouʔ/ ‘granary’
/mai-raŋ/ ‘plate’ (for rice)

(iii) Nouns with derivative constructions

Some of the polymorphemic nouns in Uchai are of derivative constructions. Such polymorphemic nouns are derived either by adding a noun, a verb, an adjective or a derivative suffix either to the base noun. Here are few examples of derivative polymorphemic nouns in Uchai:
Noun + Noun:

/aboʔ-toi/
breast-water > /aboʔtoi/ ‘milk’

/mukhu-toi/
mouth-water > /mukhutoi/ ‘spit’

/toi-nouʔ/
water-house > /toinouʔ/ ‘room to keep water’

Noun + Verb:

/ša-ka/
sun-rise > /šaka/ ‘east’

/ša-thaṇ/
sun-go > /šathaṇ/ ‘west’

/ho-khu/
fire-scatter > /hokhu/ ‘smoke’

Noun + Adjective:

/raŋ-čaʔ/
money-red > /raŋčaʔ/ ‘gold’

/thuŋ-kuruŋ/
play-expert > /thuŋkuruŋ/ ‘sportsman’

/nouba-juŋ/
air-enormous > /noubajuŋ/ ‘storm’
Noun/Verb + Derivative Suffix:

/tan-ča-nai/

/snuŋ-nai/
learn-AGT > /snuŋnai/ ‘student’

/da-tau?-nai/
chopper-make-AGT > /datau?nai/ ‘blacksmith’

An abstract noun in Uchai refers to something which cannot be physically interacted. In other words, it is an aspect, concept, idea, experience, a state of being, trait, quality, feeling, or any other entity that cannot be experienced with the five senses. Here are few examples of abstract nouns in Uchai:
3.7. Body Parts

Names of different parts of the body as found in Uchai can also be classified under the category of Nouns. Names of the body parts can however, be grouped as: human and non-human body parts. Examples of both types are given below:

/hɨʔ/ ‘wife’
/kra/ ‘father-in-law’
/kraiʔuʔ/ ‘mother-in-law’

3.9. Verbal Nouns
Verbal Nouns are nouns formed from verbs. Though verbal nouns are formed from verbs yet they function as nouns; they look like verbs but work as a noun. In Uchai, verbal nouns are obtained by suffixing /-mo/ to the verb. Few examples of verbal nouns found in Uchai are given below:

/ča-mo/ ‘eating’
/thuŋ-mo/ ‘playing’
/kau-sa-mo/ ‘speaking’
/šiyau-mo/ ‘swimming’
/hinŋ-mo/ ‘walking’

4. Pronouns

Pronouns refer to a set of items which can be used to substitute for a noun or a noun phrase. Pronouns show the distinction of person and occur as pronominal prefix before the nouns and adjectives. On the basis of usage of separate lexical items for different purposes, the pronouns in Uchai can be classified into certain categories which are discussed below.

4.1. Personal Pronouns

The personal pronoun is represented by separate lexical items in Uchai. A three way distinction of person is made in personal pronoun. They are the first person, second person and third person. The first person pronoun refers to the speaker, the second person pronoun to the listener and the third person pronoun to others. The personal pronouns in Uchai do not show any gender-sex distinction. All the personal pronouns of Uchai are listed below:

<table>
<thead>
<tr>
<th></th>
<th>Singular</th>
<th>Plural</th>
</tr>
</thead>
<tbody>
<tr>
<td>First Person</td>
<td>/aŋ/ ‘I’</td>
<td>/čuŋ/ ‘we’</td>
</tr>
<tr>
<td>Second Person</td>
<td>/nuŋ/ ‘you’</td>
<td>/nənaŋ/ ‘you’</td>
</tr>
<tr>
<td>Third Person</td>
<td>/bo/ ‘he’/‘she’/‘it’</td>
<td>/braŋ/ ‘they’</td>
</tr>
</tbody>
</table>

The first person pronouns /aŋ/ ‘I’ and /čuŋ/ ‘we’ have two allophones each. While the allophones for first person singular are /aŋ/ and /a-/l, the allophones for the first person plural are /čuŋ/and /či-/l. The allomorph /a-/ of the first person singular
pronominal prefix before all the substantives except those beginning with ‘h’, as in /a-moŋ/ ‘my mother’, /a-pa/ ‘my father’ but /aŋ hik/ ‘my wife’. Moreover, the allomorph /či-/ of the first person plural occurs before the genitive marker /-ni/, as in, /či-ni/ ‘of us’; while /čuŋ/ occurs with other case markers. Likewise, the allomorph /nə-/ of the second person singular pronoun and /bə-/ of the third person singular pronoun occur before the accusative and dative morpheme /-no/, for instance, /nə-no/ and /bə-no/ meaning ‘your’ or ‘to you’ and ‘his/her’ or ‘to him/her’ respectively.

4.2. Demonstrative Pronouns

In Uchai, two demonstrative pronouns are found, /bo/ and /abo/, denoting proximity and remoteness respectively. The same forms are used both for singular and plural as well as for animate and inanimate nouns. However, the morpheme /rau/, the plural marker in Uchai is used after the demonstrative pronoun to indicate plurality.

Few sentences are given below to illustrate the use of demonstrative pronouns in Uchai:

1] /bo le blai/  
DEM PRO EQU cat This is a cat.

2] /abo le boi/  
DEM PRO EQU book That is a book.

3] /bo rau le tebil/  
DEM PRO PL EQU table These are tables.

4] /abo rau le šoi/

4.3. Possessive Pronouns
Possessive pronouns are, in fact, the genitive forms of personal pronouns. All the possessive pronouns of Uchai are listed below:

4.4. Referential Pronouns

In Uchai, the referential pronoun is a nominal form used to substitute the identical noun occurring in the sentence or in the succeeding sentence(s). When a pronoun refers directly to something, it has reference – thus, referential pronoun. So,
the noun that the pronoun is replacing is called its antecedent or referential pronoun. In Uchai, /bo/ and /abo/ are used as referential pronouns. For instance,

10] /bo khe či-ni nou?/ čuŋ abo-no hāyau?-woi/
DEM PRO EQU 2SG-GEN house 2PL REF PRO-ACC love-PRES
This is our house. We love it.

4.5. Interrogative Pronouns

Interrogative pronouns in Uchai do not take the number marker and same interrogative pronouns are used for both animate and inanimate objects. The following are the interrogative pronouns used in Uchai:

/šo/ : ‘who’
13] /nə-ni mə-pha le šo/

4.6. Reflexive Pronouns

The reflexive pronoun refers to a construction where the subject and the object relate to the same entity. Uchai uses the forms of personal pronouns to indicate reflexive pronouns. However, the morpheme /sauʔ/ ‘self’ is used after the personal pronoun. Again, the numeral marker /kai/ and /ha/ ‘one’ is also added after the morpheme /sauʔ/ to indicate singularity. The different ways how the personal pronouns are used as reflexive pronouns in Uchai are given below:

<table>
<thead>
<tr>
<th>Bases</th>

</thead>
<tbody>

28] /braŋ-sau? se abo-ni khaiye le dosa/

4.7. Indefinite Pronouns

The indefinite pronoun refers to an entity or class of entities which is not capable of specific identification. However, use of indefinite pronoun in Uchai is limited. The same form /joto/ is used for ‘all’ and ‘everything’ in Uchai, as in,

29] /joto nou?-wo than-pai-hā/
All house-LOC go-complete-PST
All of them went home.

30] /a-ni joto train-wo kəma than-hā/

5. Conclusion

The noun in Uchai may be defined as a word that can take the pronominal prefix and carry the distinction of gender and number. The grammatical construction of Uchai nouns may be shown as:

Noun = root ± gender ± number

Here are few examples:

Noun (root) : /šoi/ ‘dog’
Noun (root + gender) : /šoila/ ‘male dog’
Noun (root + number) : /šoirau/ ‘dogs’
Noun (root + gender + number) : /šolarau/ ‘male dogs’

Uchai nouns can be broadly classified as (i) monomorphemic and (ii) polymorphemic nouns. However, polymorphemic nouns in Uchai are more numerous.
than monomorphemic nouns. The polymorphemic nouns in Uchai are formed in three different ways:

(i) Nouns where the first member is a Pronominal Prefix,
(ii) Nouns where the first member is a Generic Noun, and
(iii) Nouns with derivative constructions.

Uchai nouns can be classified under certain categories, like, generic noun, non-generic noun, human animate noun, non-human animate noun, inanimate noun, abstract noun, noun indicating parts of body, kinship terms, and verbal nouns.

Pronouns in Uchai are a sub-class of nominal as the root morpheme is capable of taking case affixes. In Uchai, the root pronoun may be followed by case markers. Therefore, the morphological construction of pronoun in Uchai may be stated as:

\[ \text{Pronoun} = \text{Root} + \text{case} \]

It means that the root pronoun can occur alone as well as with case markers. Hence, Uchai pronoun has basically two types of morphological construction which are as follows:

- **Pronoun (only root)**: /aŋ/ ‘I’
- **Pronoun (root + case)**: /aŋ-no/ ‘to me’

On the basis of usage of separate lexical items for different purposes, the pronouns in Uchai can be classified into certain categories which are as follows:

(i) **personal pronouns** like /aŋ/ ‘I’, /čuŋ/ ‘we’, /nuŋ/ ‘you’, /nənaŋ/ ‘you’, /bo/ ‘he’/‘she’/‘it’ and /braŋ/ ‘they’;
(ii) **demonstrative pronouns** like /bo/ ‘this’ and /abo/ ‘that’;
